DASE7503 Robotic Systems Integration

Group Project Demonstration and Presentation

Schedule

14:20 – 15:00 Revision (Each lecture’s key topics)

15:00 – 16:20 Group Project’s Demonstration

16:30 – 18:10 Group Project’s Presentation

Group Project's Demonstration and Presentation

- Demonstration
  - Create the best record within 8 minutes
  - Create a **QR scanning record**, which stores the scanning's timestamp of each workstation and submit the record immediately after the demonstration
- Presentation (Give an 8-minute Presentation + 2-minute Q&A)
  - Introduction of a smart wheel-driven robot for logistics application
  - Market study and analysis
  - A business plan and finance plan
  - Present robot's innovative design and features
  - Conclusion

Submission

Each group is required to submit the following items:

1. The completed drone-enabled delivery assembly and robotic-arm enabled cargo-loading assembly;
2. All CAD models;
3. All control programs; and
4. A PowerPoint of each group presentation.

Item 1 should be submitted to **Mr. Derek Tong** or **Mr. Mark Wan** in the Laboratory **HW 103A** by **17:00 on April 27, 2026 (Monday)**.

Besides, items 2-4 should be submitted to the Moodle by **23:59 on April 27, 2026**.
